FOR IMMEDIATE RELEASE

Sasy n Savy Native Australian Skincare Range now available at Duty Free Gold Coast Airport

Gold Coast, Queensland, Australia, 19th November 2009 – After much success launching the Native Australian Skincare range at Duty Free Adelaide International Airport, Sasy n Savy is now available at Duty Free Gold Coast Airport.

Paul Alexander, Merchandise Manager for Gold Coast Duty Free is pleased to offer the range, being the only Australian made and owned skin care brand, for the International and Australian traveller who is heading to Japan, Malaysia, New Zealand and beyond.

'The Sasy n Savy Native Australian Skincare range offers key elements of skincare to the traveller who is looking for an eco friendly product. From the scented mists that refresh and revive you during a long-haul flight – to the Rose Lavender Hand n Nail Repair Crème. All products are under AU\$50 duty and tax free'.

Paul continued, 'Duty Free Stores Australia is very excited about the new store concept in the Gold Coast. A highly visual and dynamic environment that offers product that is uniquely

Australian along with internationally recognised master brands across all product categories.'

Samea Maakrun, MD of Sasy n Savy is confident the same success will be seen in the Gold Coast. 'We are honoured to be working with Duty Free Stores Australia and to be given the opportunity to hold a strong retail presence alongside global luxury brands.'

About Sasy n Savy Pty Ltd

Sasy n Savy Pty Ltd is an Australian owned company based in Sydney Australia manufacturing Native Australian Natural Skin Care & Wellbeing Products. Currently exports to 18 countries throughout Asia, Middle East, USA and Pacific.

Products are enriched with Native Australian plants extract, herb extracts and flower extracts such as the Kakadu Plum, Wild Rosella and Grass Lily which are high in vitamins, antioxidants and nutrients vital for skin cell growth. All are formulated without animal testing or animal ingredients and free from parabens, petrochemical cleansers, synthetic colours and fragrances, pesticides or herbicide residues, mineral oils, sulfates, ethoxylates, propylene glycol, silicones, phthalates, and artificial colours.
